The Exeter College Summer Programme in the University of Oxford

EXETER
COLLEGE
OXFORD

*A 6-week International Summer Programme
Sunday 23rd June to Saturday 3rd August 2024*

ECSP offers a unique opportunity to experience undergraduate life at the oldest university in the English-speaking world. Enjoy outstanding small-group teaching in the beautiful and inspiring 'city of dreaming spires' as we bring together the intimacy of College life with the fun-filled excitement of studying with students from around the world for one unforgettable summer!

At the core of ECSP and central to undergraduate teaching at Oxford is the 'tutorial system' – small, discussion-based groups which offer a rare level of personalised attention from academic experts. An exciting array of cross-disciplinary lecture courses offered in the arts, humanities, social sciences, and sciences define the pace and style of ECSP. Or, you can pursue your own research, working 1-to-1 with an academic expert on a subject of your choosing.

Collegiate life will revolve around the Cohen Quadrangle (2017), Exeter's modern building where you will enjoy state-of-the-art facilities, and the historic Turl Street site (1315) where you can study in the newly refurbished gothic library, stroll in its tranquil garden and enjoy the ancient Oxford tradition of formal dining with fellow students and faculty.

While studying is paramount, we want to help you experience the best Oxford has to offer. Outside the classroom, our team of Oxford students will organise an exciting social programme. Whatever your interests – punting, croquet, cream teas, music, theatre, museums, popular culture, sports, sightseeing or shopping – we've got it covered!

ECSP invites applications from students of all academic disciplines and backgrounds in full-time higher education with a cumulative GPA of at least 3.5, or equivalent. Given the intense competition for places, **we recommend early application.**

To make an application and for further information please visit the website or contact us:
